

February 2016

## 2016 Benefits Update for Active Employees

Your benefits coverage through PSGIP is an important part of your total compensation package, providing health and dental coverage and financial protection for you and your family throughout your career. That is why we are proud to offer you a comprehensive program.

The PSGIP Trustees recently completed the annual renewal of your benefits program. Below are the results of the renewal, including highlights of the rate changes effective April 1, 2016.

### 2016 rates

Each year we review our benefits program to ensure that contribution rates are adequate to pay expected claims and expenses in the coming benefit year.

As a result of this review, you will see some changes to the health and dental rates effective April 1, 2016. Although some of our rates are increasing, they do remain competitive when compared to industry norms.

There will be no change to the cost for travel insurance, basic life and accident, dependent life, optional life and accident and long term disability coverage.

#### Overview of rate changes

Here's an overview of the rate changes effective April 1, 2016:

	Cost per pay		
	Current	New	Difference
<b>Health coverage</b>			
Single	\$17.83	<b>\$21.02</b>	\$3.19
Family	\$41.54	<b>\$48.99</b>	\$7.45
<b>Dental coverage – Basic only</b>			
Single	\$7.02	<b>\$7.84</b>	\$0.82
Family	\$17.69	<b>\$19.74</b>	\$2.05
<b>Dental coverage – Basic and major</b>			
Single	\$8.99	<b>\$9.83</b>	\$0.84
Family	\$21.95	<b>\$23.99</b>	\$2.04

## A closer look at health and dental costs

Health and dental costs in Canada have continued to rise over the last few years. An aging population, increased use of services and more expensive treatments are all factors that are causing benefit costs to increase.

In addition, as a result of legislative changes to the PEI Drug Cost Assistance Act, private health care plans have become the first payer for medications that were covered by the provincial Drug Cost Assistance Programs (DCAP). Because of this change, the PSGIP has had to pick up the coverage of these medications, which were previously covered by the DCAP. This has increased our drug expenses and, as a result, we've had to increase the rates.

### Tips to help control benefit costs

Here are a couple of ways to help you and our benefits program save on health and dental expenses.

- Shop around – drug costs and dispensing fees can vary considerably between pharmacies. Dispensing fees can range from as low as \$8.25 up to \$12.32 per prescription.
- Order a three-month supply of long-term or maintenance prescription drugs to save on extra dispensing fee costs.
- Take your medication as directed to avoid a reoccurrence of your illness and the need to start the treatment over again.
- Get a second opinion before starting expensive dental treatment. Procedures and costs can vary considerably from one dentist to another to treat the same dental problem.

### Need more information?
